

Hello there,

We hope you all had an enjoyable summer despite the weather! For our Autumn Newsletter, we have included details on some fantastic new treatments at our clinics, the latest to hit Irish shores – Macrolane Breast Enhancement and Body Sculpting, Vaser Liposuction and Silhouette Thread Lift. We are also delighted to welcome renowned surgeon and cosmetic doctor, Dr. Shunil Roy (MBBS, FRCS) to the team. Having previously worked in both St Vincent's Hospital and The Blackrock Clinic in Cardiothoracic Surgery, and since September 2006 as a Cosmetic Surgeon, Dr. Roy will specialise in these and other minimally invasive procedures at our clinics. Further information is included in our newsletter and on our website, www.dermalaser.ie.

We look forward to seeing you soon,
Patricia

Increase Your Bust Size in One Hour

Before
Macrolane

After 110ml
Macrolane VRF 30

New to Ireland, Macrolane is a safe and simple injection treatment which restores volume and shape to the breast. Dubbed the Boob Jab, Macrolane is suitable for women with asymmetry, under-developed breasts or simply a loss of volume as a result of breast feeding or weight loss.

- Minimally invasive alternative to breast augmentation
- No need for general anaesthetic or hospital stay
- Natural looking enhancement of one to one and a half cup size
- Fast treatment with instant, noticeable results
- No scarring or downtime

Shift Those Stubborn Fat Deposits

with Vaser Liposuction and watch your body shape change.

IMAGE MAGAZINE, October: The Experts Top Treatment's Explained

“A less invasive form of liposuction performed under local anaesthetic, so there is less downtime. It utilizes ultrasound technology to isolate fat cells and then turn them in to a viscous liquid which is then removed...Most effective on love handles, saddlebags and isolated pockets of stubborn fat”

- Minimally invasive and uses state of the art ultrasound technology
- Treatment done under local anaesthetic
- Perfect for stubborn fat deposits on abdomen, thighs, knees, buttocks, hips, back, arms, male breasts, love handles, chin and neck areas
- Smoother and more predictable results than traditional liposuction
- Minimal downtime

Luscious Long Lashes

The lash is back. Jan Marini research uncovered a recently discovered proprietary peptide which when combined with other essential factors produces extraordinary eyelash and brow enhancement.

Case study subjects have all demonstrated the most remarkable results yet.

Now you can enjoy amazingly gorgeous, dense and lush eyelashes . . . the eyelashes of your dreams from Jan Marini Skin Research.

Skincare the Female Surgeons Secretly Swear By...

Recently featured in Grazia Magazine (August 4th: What Female Surgeons Secretly Swear By...) Epionce Skincare is now available exclusively at Derma Laser Clinics. An extensive range of skincare products, Epionce is designed to optimise the appearance and health of the skin by working at the core of

the skin's own protective and reparative systems. Epionce's exclusive multi-phase system delivers powerful therapy deep into the sub-layers of skin while protecting the skin's natural barrier. The five phases of the Fortify & Beautify System and the variety of products combine to form a suite of skin therapy solutions. Depending on individual skin type and conditions, Derma Laser Clinics specially trained skincare professionals can provide the perfect blend of phases and products just for you.

The Knife Free Face Lift

The Silhouette Thread lift now available at Derma Laser Clinics.

Perfect for: sagging jawlines, droopy eyebrows, cheeks and neck with a downward life of their own, this advanced face lift procedure gives a tighter jawline and younger, fresher look without the high risks of going under the knife. The treatment gives facial skin back the support it has lost during the ageing process.

- Facial skin is uplifted immediately
- Improvements continue after treatment for up to 6 months
- New collagen production stimulated by the tissue lifting
- Fresher, younger and very natural looking result
- Minimally invasive with minimal discomfort.
